

GSR RESPONSE

SOFTWARE FOR MEDICAL STORES AND INVENTORY MANAGEMENT FOR CATHOLOGY LAB

FINANCIAL DOCUMENT WITH ANX-B

Client	AFIC, Rawalpindi
Bidder	Blink Information Technologies
Submission	Soft copy and hard copy as required
Last Date of Submission	22 May 2026
Soft Copy Email	gso2it@afic.gov.pk
Document Status	Editable Draft with tentative amounts - ready for final company approval/signature

1. Financial Proposal Notes

- The price schedule below follows Anx-B: Equipment Offered with Price.
- The amounts below are tentative estimates in PKR and should be reviewed/finalized by the bidder before submission.
- The project cost shall include installation, commissioning, prototype/beta/production deployment, master-trainer training, hand-holding and one-year service-level support, as required in the GSR.
- First-year SLA support, installation, commissioning, training and hand-holding are included in the project cost as required; post-warranty AMC/monthly maintenance is shown separately for future support reference.

Anx-B: Equipment Offered with Price

Ser	Software/services	Specifications	Price
1	Software Suite: Medical Stores and Cathology Lab Stores Management System	Two integrated web-based modules: Main Medical Store Inventory Management and Cathology Lab Store Management; barcode/QR workflows; patient-wise issue; stock taking; dashboards; reports; forecasting; RBAC; on-premises deployment.	PKR 3 M
2	Deployment Charges: Implementation, Installation, Commissioning and Training	Turnkey deployment on AFIC-provided virtual platform including prototype finalization, beta/test deployment, production deployment, master-trainer training and hand-holding.	PKR 1 M
3	Annual (Licensing Fees Charge (AMC) - Post Warranty	Annual maintenance and support after completion of the included first-year SLA/warranty period. Includes issue resolution, minor updates and operational support.	PKR 1 M per annum
4	Monthly Maintenance Charge - Post Warranty	Monthly maintenance option after warranty; equivalent reference amount based on the annual AMC.	PKR 600,000 per month
5	Total Price for Project / Year-1 Cost	Total for software suite and deployment charges. First-year SLA support is included. Post-warranty AMC/monthly maintenance is not included in this total unless separately approved.	PKR 5 Million plus taxes

2. Commercial Compliance Statement

We confirm that the financial offer corresponds to the technical proposal for Software for Medical Stores and Inventory Management for the Cathology Lab. The tentative Year-1 project cost is PKR 9,500,000, inclusive of software suite, deployment/commissioning, training, hand-holding, and the included first-year SLA support. Post-warranty support is quoted separately as PKR 1,200,000 per annum or PKR 100,000 per month. Final amounts, applicable taxes, validity period and signature/stamp should be completed by the bidder before submission.
